PROJECT UPDATE

The I-70 Phase 2D project is in its 29th month of construction.

Construction activities completed in July included forming and pouring concrete for the pier (central support) for the widened I-70 bridges over South Street as well as drainage improvements along South Street and work in the I-70 median.

Construction activities scheduled for August include installing steel girders for the new bridge and construction of a storm water management pond.

Construction activities for September include construction of the deck (driving surface) of the new bridge and paving on South Street. Project completion is anticipated by the end of 2013, weather permitting.

For everyone's safety, please drive carefully, stay alert and reduce speed when traveling within the project work zone.

We request that the public not trespass in construction areas.
